INSPIRATION Project – Spatial Data Infrastructure in the Western Balkans

Second regional Inspire training

Croatia, Zagreb, September 25- 27 2012

### Republic of Kosova in figures:

AREA	10 908 km <sup>2</sup>
BORDER LINE	744 km
CADASTRAL ZONES	1302
MUNICIPALITIES	38
MUNICIPAL CADASTRAL OFFICES	38
GEODETC REFERENCE NETWORK POINTS – 1st ORDER	32
GEODETC REFERENCE NETWORK POINTS – 2nd ORDER	397
CADASTRAL PARCELS	2 million
OWNERS	400 000

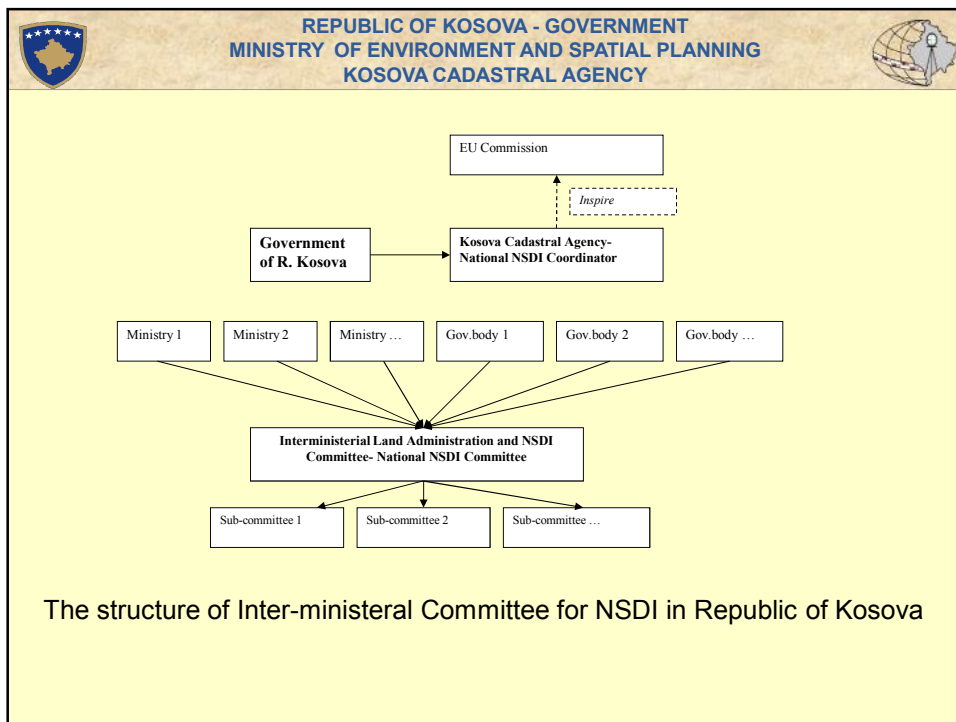

## Developments of the NSDI in Republic of Kosova

- ◆ Under the Law on Cadastre, No.04/-L-013, Article 23, Kosova Cadastral Agency is responsible for coordination and creation of NSDI in Republic of Kosova;
- ◆ For better coordination between all stakeholders producing the spatial data in Kosova, Government has established a Inter-ministerial Committee for the Land Administration and NSDI;
- ◆ Kosova Cadastre Land Information System (KCLIS), is a unified multi-purpose system for Kosova wide use, in cooperation with data providers and users

- ◆ Kosova Cadastral Agency is implementing the project for establishment of unified Address Register in entire Republic of Kosova;
- ◆ Kosovo Cadastral Agency has signed the Contract for development of National GEO-PORTAL, which will be a common access point for all electronic services available within NSDI;
- ◆ Kosova Cadastral Agency has established a Unit for NSDI within its organizational chart.

**REPUBLIC OF KOSOVA - GOVERNMENT**  
**MINISTRY OF ENVIRONMENT AND SPATIAL PLANNING**  
**KOSOVA CADASTRAL AGENCY**

### New Legal Framework

- ◆ Law on Cadastre No.04/-L-013;
- ◆ Law on Amendments and Supplements to the Law on the Establishment of Immovable Property Rights Register (IPRR), No.04/-L-009;
- ◆ Law on Address System, No.04/-L-071

It is expected that NSDI in Republic of Kosova will be fully operational within the next three years, provided that there will be:

- More public awareness campaigns about the role of NSDI;
- Building more professional capacities for NSDI;
- Full coordination about NSDI within relevant institutions (stakeholders);
- Adopted National Strategy for NSDI;
- Completed NSDI related Legal Framework;
- Operational NSDI Geo-portal;
- Completed data standardization in the public and private sector etc.

Missing preconditions for establishing NSDI:

- Public Awareness;
- Strategy;
- Policies;
- Capacities etc.

Measures to overcome identified issues:

- Organizing public awareness campaigns;
- Building the Capacities (promotions, learning);
- Implementation of the NSDI common projects with other stakeholders in the country;
- Drafting the National Strategy, Legal Framework;
- Fully operational NSDI's Geo-portal etc.

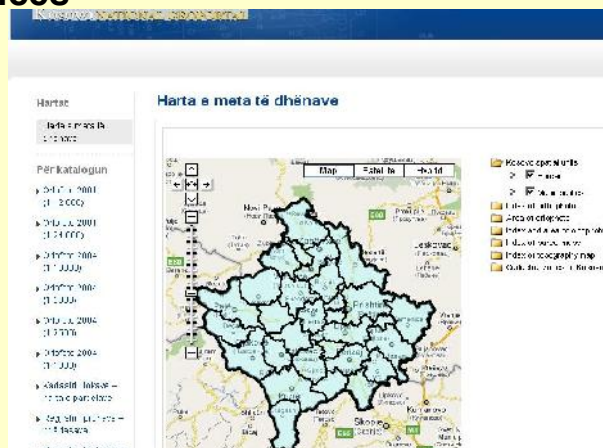

Cooperation with countries in the region:

Kosova Cadastral Agency has already good cooperation with most National Surveying and Mapping Authorities of the countries in the region, expecting to expand this cooperation further

## e - services

Example of online services in Republic of Kosovo (KNG)

## Expectations from project

- ◆ Drafting a long-term strategy to ensure the success of the NSDI;
- ◆ Supporting the co-operation between different organisations, as a foundation for building the NSDI;
- ◆ Supporting the preparation of the NSDI Legal Framework;
- ◆ Raising awareness of Kosova Government representatives and of the general public by all major (public) spatial data producers about spatial data infrastructure and INSPIRE etc.
